Marvel® Warranty and Quality Information

The Marvel® Lifetime Warranty

Marvel ® warrants its products to the original purchaser to be free from defects in material and workmanship for as long as the original purchaser owns the product, except as provided below.
Components and parts deemed as high wear including: casters, pneumatic cylinders, stacking chairs, and task lights are warranted for five years from the date of sale. Fabrics are warranted for five years. Electronic Adjustable Table electric components and motors are limited to 5 years, under normal operating conditions, subject to inspection and determination of the manufacturer. Seating control mechanisms and keyboard arms are warranted for ten years from the date of original sale. Warranty periods for seating that exceeds eight hours per day usage (single shift) is reduced in a pro-rata basis.
This warranty excludes products that were not installed or used in accordance with product instructions and warnings. Product adaptations, customizations or modifications not explicitly approved by Marvel ® do not qualify for this warranty.
The obligations of Marvel® are limited to repair or replacement at the sole option of Marvel®. Marvel®, in no event, will be responsible for incidental or consequential damages arising out of a claim for defective or damaged product.

Marvel® Environmental Statement

The Marvel Group, Inc. is proud of our ongoing commitment to responsible environmental policies and manufacturing processes. Safeguarding the earth's vital resources through conservation, technology application and progressive emission controls is a responsibility embodied in our manufacturing, sourcing and marketing practices.
Marvel® wood and wood based components including our particleboard have no components related to or sourced from coastal rainforests, ancient or old growth forests. Additionally Marvel ® is continuing research into the use of Hay and Grain based particleboard for potential use in future products.
Our coating process emissions are the lowest possible as Marvel ® utilizes unique state-of-the-art powder-coating methods, which virtually eliminate vapor emissions as well as allowing us to recycle close to 100% of our overspray.
Our steel suppliers currently use a variety of sources for recycled and scrap steel, which is utilized in the manufacturing process. These efforts coupled with a corporate culture of responsible stewardship combine to give our associates and customers the reassurance and confidence they demand in partnering with a socially and environmentally responsible company.

The Marvel Group, Inc. Is A Proud Past Recipient Of The Illinois Governor's Pollution Prevention Award.

Recycled Content for Marvel Zapf® Product line:
Aluminum Frame comprises 90% of each panel and contains 70% post consumer recycled aluminum.
Steel supports, storage and other components comprise 80% of a Freestanding typical and contains 15% post consumer recycled steel.

Terms and Conditions

Ordering

Price & Payment

Orders are invoiced at the time of shipment or as shipments occur in the case of multiple shipments. Payment is due within 30 days from date of invoice. In some cases Marvel® may require full or partial payment in advance or other adequate assurance of payment. Price and specifications subject to change without notice.

Changes & Cancellations

Any changes or cancellations on 4-Week Ship products must have written consent from Marvel®. Approved cancellations for products will be subject to a 25% cancellation charge if the request is approved within two weeks of scheduled shipping date. Any change made 10 days prior to shipment may be cause for establishing a new ship date on the original order and possible additional charges.
No cancellations are permitted within one week of ship date. Costs incurred by Marvel® as a result of any changes to special orders or Customers Own Materials (COM) requests will be born by the customer.
Note: Orders received after 12:00 noon Central Time will be entered the following day.

Taxes

If the Purchaser is tax exempt, it is the Purchaser's responsibility to furnish appropriate tax exempt certification. All applicable taxes, excluding only taxes on the net income of Marvel®, are the Purchaser's responsibility and will be invoiced to the Purchaser.

Shipping

Shipping/Delivery/Freight

All orders excluding international with a list price above $10,000 are shipped FOB destination, orders less than $10,000 list are subject to a maximum $500 freight charge. A $3 minimum freight charge applies. International orders are shipped via the same cost schedule to the U.S. contiguous border only. Marvel® will select the method of shipment, unless otherwise specified by Purchaser. If added cost is incurred due to Purchaser's special request, the added cost will be invoiced to Purchaser. All Marvel® shipping lead times are subject to change without notice. Inside delivery or other special shipping requests will be added to customer invoice. Marvel® does not guarantee delivery dates or times.

Storage/Postponed Shipments

In the event Purchaser postpones delivery more than one week after the scheduled shipping date or after the goods have become work-in-process, Marvel® may transfer, at the Purchaser's risk and expense, the goods to storage. In such an event a storage fee will be added to the Purchaser's invoice of 1% of net value per week.

Returns

To request a return, call the Marvel® Customer Service Department within 30 days of the invoice date. Once approved, you will receive an authorization number and return documentation to accompany the product and further instructions. To avoid additional product reworking fees, goods must be appropriately packaged to ensure safe return. Purchaser assumes all liability for custom/special products and items manufactured with customer supplied materials (COM). No returns for such items will be accepted.
All returns are subject to a 25% restocking charge.

Claims

In the event that any product arrives damaged, Marvel® will:

1. Replace goods immediately at no charge.
2. Contact the freight carrier for inspection and return delivery to Marvel® .
3. Process claim with freight carrier.

IMMEDIATELY UPON RECEIPT, PURCHASER MUST NOTE ON THE FREIGHT CARRIERS' BILL OF LADING **ANY** DAMAGES TO THE PRODUCT AND OBTAIN DRIVER'S SIGNATURE. IF THIS IS NOT DONE, A FREIGHT CLAIM CANNOT BE FILED, REMOVING LIABILITY FROM THE CARRIER. IF A CLAIM CANNOT BE FILED, MARVEL® CANNOT REPLACE THE DAMAGED PRODUCT AT NO CHARGE.

Panel Fabric Direction Selection

Standard 80” or higher panels are upholstered vertically, whereas all other panels, 67” or shorter, are upholstered horizontally. When placed in the same area a shading discrepancy may occur. To maintain visual continuity, please select OPTION A, an upcharge will apply:

OPTION A. To maintain a uniform appearance of the panels, the fabric direction on 67” or shorter panels will match the fabric direction of the 80” or higher panels. An upcharge of 12% per panel will be added to your order to cover the expense of matching the fabric direction.

OPTION B. The fabric pattern will not match on this order. It is understood that there will be a shading discrepancy and there will be no upcharge for this option.

Specials Policy

All special product requests must be preapproved by a Marvel® Customer Service Representative. Please allow five business days to process approval, pricing and lead time status.

See page 61 of this pricer for important product details.

3. Dimensional Gain

Two-way, three-way, and four-way connectors each cause 2” dimensional gain.
Extended rectangular surfaces are available on page 73.

4. Worksurfaces

All worksurfaces are constructed of 1 1/8” thick particleboard with high pressure laminate applied on the top and a full backing sheet bonded to the bottom.
Square edge and Bull nose surface detail is available on all surfaces.

5. Product Testing

Electrical components are U.L. 1286 (C UL) listed. Panels and support components meet or exceed all ANSI BIFMA X5.6 requirements. Panels are Class A fire Rated.
The Noise Reduction Coefficient is .70, and the Sound Transmission Class (STC) is 24.

Grain Direction Indicators

Worksurfaces and Zapf® Tiled Panels with wood grain laminates are manufactured in a consistent grain direction. This direction will be indicated on the product icon to the left of the item listing. The direction will be shown as a unique double ended arrow. Does not apply to non-wood grain laminates.

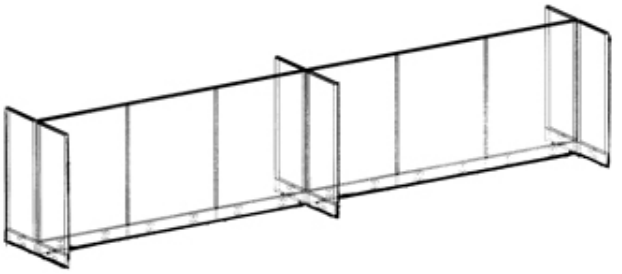
Marvel Zapf® Support and Stability Planning

This information is a guideline for safe layout and panel installation: Refer to it to make sure every panel run and component has adequate support.

Sequence to Determine Proper Support

Determine:

1. The components that qualify as support components
2. The panels that qualify as support panels
3. Termination support for each end of panel run
4. If panel run is non-loaded
5. If panel run is load-bearing
6. Support panel width
7. Support panel height
8. Minimum interval between support panels



1. Support Components

These components provide adequate lateral support to a panel run. The following qualify as support components:

- A Full Leg Support attached to a worksurface
- A Panel Mount-to-Wall Kit attached to a structurally sound surface
- A Panel-to-Pedestal Bracket attached to a worksurface

2. Support Panels

These panel types qualify as approved support when they are attached perpendicularly to the panel run:

- Acoustical Panel
- Glazed Panel
- Half Glazed Panel
- Clear Story Panel
- Open Base Panel
- Tiled Panel

If a panel is used as the support component, it must meet the width and height requirements established in Step 3.

3. Panel Run Lengths

A. Double sided panel returns
A panel run between 48” and a maximum of 144” must have a minimum of two return panels totaling 20% of the panel run extended in opposing directions on each end of the panel run.

B. Single sided panel returns
A panel run between 48” and a maximum of 144” must have a minimum of two return panels totaling 60% of the panel run extended in one direction on each end of the panel run. The minimum return panel length must be 48”.

C. Worksurface must be supported properly every 48” to provide correct stability. It is recommended that shared legs be used to support all corner surfaces.

4. Non-Loaded Panels

Panels with no components attached are considered non-loaded. When the following components are attached, these panels are also considered non-loaded:

- Tackboard

5. Load Bearing Panels

A panel supporting any other type of component is considered a load-bearing panel.
These components include:

- All shelves and Flipper Door Units
- Hanging Worksurface
- Corner Worksurface

Worksurfaces are considered load-bearing with or without suspended components or drawers.
A support panel or support component must be used on each side of a load-bearing panel.

Pre-Configured Tiled Panels

Product Overview

Zapf ® Pre-configured Tiled Panels match widths and heights of all Zapf ® panels and are compatible with the Zapf ® systems. The Pre-configured Tiled Panels offer you three heights and six widths of frames. Each panel you order is 2 sided.

Each Pre-configured Tile Panel will have the same fabric you order on every panel. You can select Finish of frame from Marvel standard finishes.

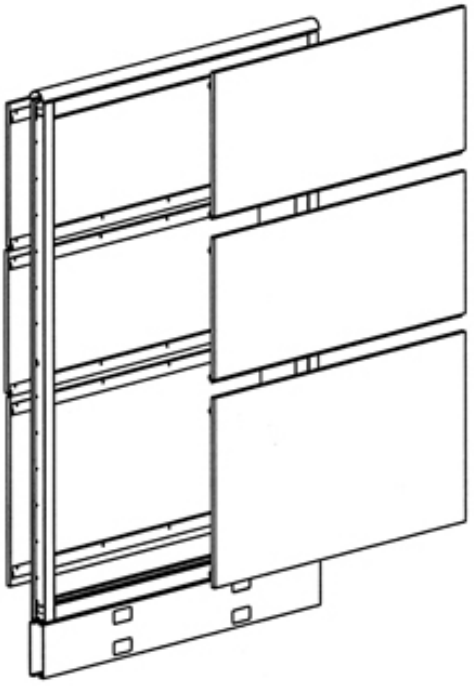
Pre-Configured Tiled Panels Include:

- Tiled Panel Frame
- Tiled Panel Inserts (front and back tiles)
- Raceway
- Top Cap

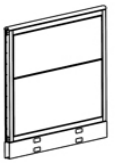
Tiled Panel Insert Construction

- Tiled Panel Inserts are easily removable.
- Base Tiled Insert is always 21” high.
- Upper Tiled Inserts are 8” high on 41" panels.
- Upper Tiled Inserts are 16” high on 49", 65", and 81" panels.
- Upper (16”) Tiled Inserts are interchangeable.

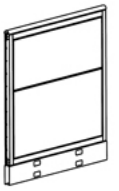
(Tiled Panels may be ordered by components, see Build-to-Spec section for the list of optional materials available starting on page 47.



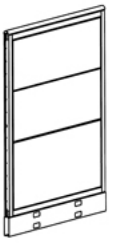
41” High Tile Panel requires:
- One 41” high Frame, includes Raceway and Top Cap
- Two 8” high Tiled Panel Inserts (One on ea. side)
- Two 21” high (base) Tiled Panel Inserts (One on ea. side)



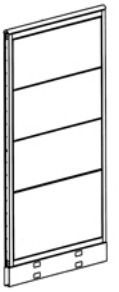
49” High Tiled Panel includes:
- One 49” high Frame with Raceway and Top Cap
- Two 16” high Tiled Panel Inserts (One on ea. side)
- Two 21” high (base) Tiled Panel Inserts (One on ea. side)



65” High Tiled Panel includes:
- One 65” high Frame with Raceway and Top Cap
- Four 16” high Tiled Panel Inserts (Two on ea. side)
- Two 21” high (base) Tiled Panel Inserts (One on ea. side)



81” High Tiled Panel includes:
- One 81” high Frame with Raceway and Top Cap
- Six 16” high Tiled Panel Inserts (Three on ea. side)
- Two 21” high (base) Tiled Panel Inserts (One on ea. side)



Pre-Configured Clear Story Glazed or Acrylic Tiled Panels:
These tiled panels include one two-sided clear story tiled panel insert at the top in the sizes and configurations shown above.

Variable Height Connectors – SIN 711-1

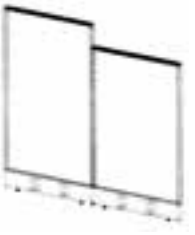
Product Description

Connects two panels in-line at differing heights.

Includes

- Connection Bracket
- Trim Piece(s)

Description	Product Number	Price
41” In-Line Connector	ZCVI41( )	$32.93
49” In-Line Connector	ZCVI49( )	$32.93
57” In-Line Connector	ZCVI57( )	$32.93
65” In-Line Connector	ZCVI65( )	$32.93
81” In-Line Connector	ZCVI81( )	$32.93



In-Line Connection:
Starting height 65”
Dropped height 57”

Use these guidelines for specifying correct height drop
Model number format: ZCVI65(__) Add letter corresponding to panel being dropped

A = 33” Panel
B = 41” Panel
C = 49” Panel
D = 57” Panel
E = 65” Panel

ex: ZCVI65D

Starting Height = 65"
Dropped Height = 57"

Planning tips:
- No additional dimensional gain
- Connects in-line panels only
- Height drop cannot exceed 24” (Example: 81” to 57”)
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page 76

Note: Lower panel top cap to be field cut 1.75” to accommodate drop down

1 = 33” Panel 4 = 57” Panel
2 = 41” Panel 5 = 65” Panel
3 = 49” Panel 6 = 81” Panel

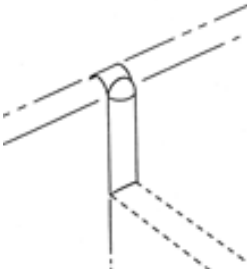
Ex: ZCV2W65A5B4 **65"**

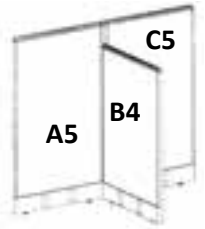
57"

Planning tips: 2-Way Post Connectors have 2” dimensional gain
- Do not need to specify regular 2-Way Connector
- Height drop cannot exceed 24” (Ex. 81” to 57”)
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page 76

Note: Lower panel top cap to be field cut 1.75” to accommodate drop down

3-Way Connectors – SIN 711-1 *On GIZA Auto-Hardware*





3-Way Connection:
Starting height 65”,
Dropped height 57

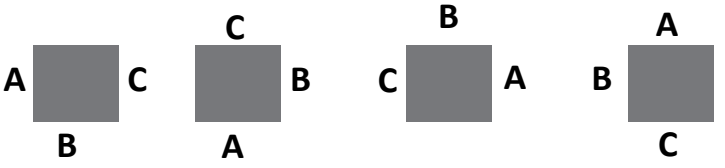
Product Description

Connects two panels at 90 degree corner at differing heights.

Includes

- 90 degree Connector Post
- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim Pieces

Description	Product Number	Price
3-Way Connector	ZCV3W( )A( )B( )C( )	all sizes $99.53



Use these guidelines for specifying correct height drop
Model number format: ZCV3W( )A( )B( )C( ) Add letter corresponding to panel being dropped

1 = 33” Panel 4 = 57” Panel
2 = 41” Panel 5 = 65” Panel

4-Way Connectors – SIN 711-1

On GIZA Auto-Hardware

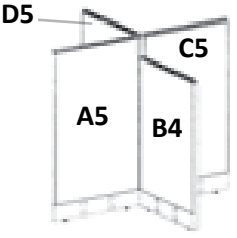
Product Description

Connects four panels at 4-Way corner at differing heights.

Includes

- 4-Way Connector Post
- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim Pieces

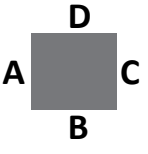
Description	Product Number	Price
4-Way Connector	ZCV4W( )A( )B( )C( )D( )	all sizes $99.53



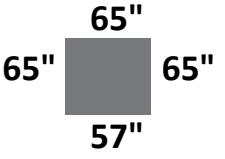
4-Way Connection:
Starting height 65”
Dropped height 57”

Use these guidelines for specifying correct height drop
Model number format: ZCV4W(_)A(_)B(_)C(_)D(_) Add letter corresponding to panel being dropped

1 = 33” Panel 4 = 57” Panel
2 = 41” Panel 5 = 65” Panel
3 = 49” Panel 6 = 81” Panel



Ex: ZCV4W65A5B4C5D5



Planning tips:
- 4-Way Post Connectors have 2” dimensional gain
- Do not need to specify regular 4-Way Connector
- Height drop cannot exceed 24”(Example: 81” to 57”)
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page 76

Note: Lower panel top cap to be field cut 1.75” to accommodate drop down

11’ Power Pole/Communication Pole – SIN 711-1

Product Description

Allows electrical and data cable access from ceiling to end-of-run panel.

Includes

- 11’ PVC Pole with Septum
- Panel and Ceiling Connection Trim

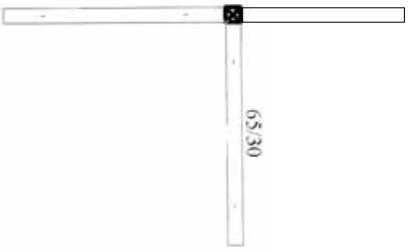
Description	Product Number	Price
11’ Power Pole	ZEPE132	$126.54

Planning tips:
- Specify 11’ Power Pole for “end-of-run” applications
- Ceiling Power Feed (below) must be specified separately
- Power Pole cannot be used with variable heights

8’ Power Pole/Communication Pole – SIN 711-1

Product Description

Allows electrical and data cable access from ceiling to 2-Way, 3-Way or 4-Way Connector Post



Includes

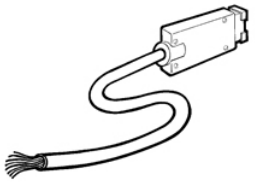
8’ Aluminum Pole with Ceiling Connection Trim

Description	Product Number	Price
8’ Power Pole	ZEPC96	$71.41

Planning tips:
- Specify 8’ Power Pole for power entry in “corner” of panels.
- Ceiling Power Feed (below) must be specified separately
- 2-Way, 3-Way, and 4-Way Connector Pole Kits must be specified separately (next page)
- All panels being connected should be of equal height
- Power Pole can not be used with variable heights

Power In Feed – SIN 711-1

On GIZA Auto-Hardware



Product Description

Connects power source in building to electrical system in furniture.

Includes

- Power Entry Cable

Description	Product Number	Price
72” Base End Feed	ZEBE72	$52.17
72” Base Side Feed	ZEBS72	$63.27
11’ Ceiling Feed	ZEC144	$66.60

Planning tips:
- Base End Feed connects the end of power block in raceway
- Base Side Feed fits within the receptacle knock-out in the raceway
- Use Ceiling Feed for either 11’ or 8’ power pole

Specify in Order:

1. Product Number
2. Finish
